THE OUR DOMINION COPPUR POT.—We have had in use now, for over two months, one of these much talkedof coffee pots, and we find that it does, in all respects, what is claimed for it. You may boil coffee in the Old Dominion for any length of time you choose, and yet lose none of the delicate around or strength. This desirable end is attained by a simple, but ingenious, contrivance in the shape of a condenser, with double syphous, by means of which the around bearing rapor, which usually goes all over the house or up the chimney, is condensed and thrown back into the coffee-boiler, and you have its delicious flavor in the con you bring to your lips. W. E. CHILDS & CO.'S PATENT Elastic Fire and Water Proof CEMENT ROOFING.

THE undersigned purchased the State Right for Tennessee of the above patent about one year ago and has since introduced it extensively in various portions of the State, asks now the attention of buildportions of the State, asks now the attention of build-ers, and the public generally, to examine its superior-ity over other modes of Roofing.

The material forms a hard and smooth surface. It is impervious to water, clastic and flexible; it will perfectly resist any ordinary exposure to fire; it is perfectly resist any ordinary exposure to fire; it is cheaper than any roof of the old style, and I am suro it will give better satisfaction; as to its durability there is no question. It is the best thing ever invented for painting of old leaky tin roofs.

The Cement will be furnished to those at a discounty Rights for using.
